CHEAPNESS SEEMS THE RULE

But It Is a Cheapness Exturted From the Convicts - The Discipline Said to

Be Very Lax. JACKSON, Oct. 28.—The statement is being published inroughout the state in the democratic press that Warden Davis has just forwarded to Lausing another \$5,000 to be placed to the credit of the Michigan state prison, and giving chase caught her after a and also the fact that during his ad- few rods run. He endeavored to stillnonstration the present warden has saved \$20,000 above the expenses of the prison and that during the last year of the Hatch administration the expenses away from him and ran toward home exceeded the receipts by \$17,000. The but fact is not explained, however, that during the last two years of Warten Hatch's term a much larger amount of money was expended in improvements. for which the legislature made no appropriation than has been expended under the present regime. The exnow in use was put in during the Hatch management, besides numerous other improvements, including the mitiative steps for the present lawn in front of the institution which was completed by Warden Davis. The present warden, from the moment of his assuming control of the prison began a systematic reduction of expenses for the sole purpose of making an eco-nomical showing regardless of the effievent management of the institution. The force of keepers and guards was

from our pay at the end of the month."

This explains how a portion of the wonderful savings of Warden Davis

Tee present warden has stooped to other petty things which the people of the state do not ask or expect of the neads of its metitutions and waich would hardly be thought of by the ordinary business man. For instance, on more than one occasion he has spent a large amount of time in haggling with farmers over the price of a load of potatoes and other produce, and so persistent has be been in this cause that very few

time to go home to their suppers, the convicts were compelled to pay for their suppers and the money was collected among those interested in the entertainment. There have been numerous other ways in which by scrimping and economizing he has accordingly an economizing he has accordingly accor course the showing to people throughout the state who are unacquamted with the facts is most excelout, but to the people of Jackson who have an opportunity to see the niggardly manner in which the institution is conducted it is anything but favorable to the administration.

## Discipline is Lax. The discipline at the prison has

never been so slack as at the present time. During the administration of Warden Davis there have been no less than twenty-five escapes, and of these only seven or eight have been recaptured. This is a record which has never been equaled in the history of the meditation. Scarcely a week passes without one or more fights or cutting affrays taking place inside the walls. The recent colling of Contractor Cuddy and still more recent atlips are evidences of the lan management of the institution, and the keepers are sant to be atraid of an outbreak among the men under their charge at any moment. The two terrible affairs referred to have opened the eves f the people of time city to the loose and dangerous manner in which the prison is conducted, and that for the fact that Warden Davis gives it out scophatically that he will not remain under any organistances longer than until the end of me present term, a movement would be started at once to since Governor Winaus to make a

There is no doubt whatever in the minds of well-informed politicians, both republicans and democrats, that the appointment of Warten Davie by Covernor Wmans will have the effect of reducing the democratic vote in Jackson and surrounding counties this fall by a number of thousands. The leading democrats of this city are outspoken in their denuncration of the methods pursued by the prison man agement and assert that if their party is not successful in November in ection, the cause can be traced directly to this cause.

Threats are made on the prisoner's life.

Murder or Suicide?

SAGINAW, Oct. 28.-News was received here this morning that the body of Joseph Bopp, a miller of this city, had been found at Prescott, Ogemas county, under circumstances which lead to a suspicion of foul play. He left here two weeks ago on the Me-tropolis, and got off at Tawas. There porrowed money to come home, and that is the last known of his actions. Some hints have been thrown out that it is a case of smode, but no particulars are known. He leaves a

NEW YORK, Oct. 28 .- H. G. Don & Co.'s weekly review of trade will say: There is a car famine from l'ittsburg to the Rocky mountains. This single fact shows the best and the worst of business. The west is marketing enormous crops, probably exceding in quantity all official or unofficial estimates, but Europe is buying but moderately, the demands of the eastern markets are greater than usual, and all the elevators both east and west are crammed with grain and all the yards are full of loaded cars. with money in fair demand.

The celebration at Chicago has re duced business in some lines, but receipts of corn increased largely, of wheat 48 per cent., of flour and cheese 20 per cent. and of butter 75 per cent., in comparison with last year, while some increase is seen in cured ments, sheep and seeds, but a decrease in oats, rye, barley, dressed beef, cattle and

hogs. At Milwaukee trade is larger than last year, and at St. Paul good, though collections are only fair, but at Minne appolis wheat receipts are 2,600,000 bushels, and the lumber trade is excellent. Business at St. Louis is stringent except in winter clothing and woolen goods, grain receipts being remarkably large, and at Kansas City receipts of cattle and hogs are heavy, though the car blockade checks transactions there, as at other western points.

At Omaha trade is heavy in groceries, in dry goods and hardware, and at Denver good in all lines. At Little Rock the outlook isgloomy and steady. At Memphis, though below the normal average, business is fair; at Nashville somewhat quiet.
